

Privacy Notice

LEARN WITH GARY | Automatic Driving Lessons, Aberdeen

Document ref	LWG-DOC-03	Version	1.0 CURRENT
Prepared	29 September 2026	Status	Approved / Current

Who this notice is for

This notice explains how Learn With Gary handles personal information used to arrange and provide driving tuition.

1. Who is responsible for your information

I am Gary Anderson, trading as Learn With Gary. If you have a privacy question, you can contact me at gary@learnwithgary.com.

2. Information that may be collected

Information may include your name and contact details, home/pickup address, date of birth, driving-licence information, lesson history, progress and training notes, payments/lesson credit, driving-test details, messages/communications, emergency-contact details and pass photos where relevant.

Where relevant to safe tuition, I may also need information about a health condition, medication or learning need that could affect your driving or the way tuition should be provided.

If you are under 18, the registration process can also collect parent/guardian and emergency-contact information.

3. Why information is used

I use this information to arrange/manage lessons, contact you, check and record lesson entitlement, manage hours/payments/credit, record progress and training needs, support driving-test arrangements, support learning/safety needs and maintain appropriate business records.

4. How information is handled

Your information may be handled through my phone/tablet, WhatsApp, Google Drive and Aberdeen Business Online systems used by Learn With Gary.

I limit access to what is reasonably required to operate my driving-school service. Where a service provider processes information on behalf of Learn With Gary, the information remains connected to providing or supporting the service.

5. If you are under 18

I normally communicate lesson and progress information directly with you. A parent/guardian may manage bookings or payments. Where appropriate and agreed with you, I may also discuss or share general progress with your parent/guardian.

6. Payments and third-party payers

A parent, guardian, family member, partner, employer or organisation may sometimes pay for your tuition. If you are 18 or over, payment by another person does not by itself give that person unrestricted access to your personal information or progress records.

7. Dashcam footage

My tuition vehicle uses a road-facing dashcam. Audio is not recorded.

The camera may operate during driving/lessons, when the ignition is on and in parking mode when unattended. It is used for accident/incident evidence and, where appropriate, lesson/training review.

Footage is normally overwritten automatically after a short period. Relevant footage may be retained where needed for an incident, insurance matter or other legitimate reason. I may share relevant footage with an insurer, police or other authorities where required. Dashcam footage is not used for public marketing.

8. Pass photos

I will obtain your permission before displaying or publishing a pass photo of you. You can decline permission. The permission record is kept separately from general acceptance of the Terms.

9. When tuition ends

When I complete your tuition, you are removed from my active pupil software and I no longer have access to your active pupil record through my normal system.

Some limited records may need to be retained separately where there is a continuing business, payment, complaint, consent, insurance or legal reason. Retention within Aberdeen Business Online's underlying systems is managed separately from my day-to-day access and should be kept only for an appropriate period.

10. Sharing information

I do not routinely sell or share your information for unrelated marketing. I may share information where necessary to provide/support the service, with your permission, with an insurer, or where required by law or an appropriate authority.

11. Your data rights

You may contact me to ask about the personal information I hold about you, request correction of inaccurate information, or raise a privacy concern. Other data-protection rights may apply depending on the circumstances.

12. Changes to this notice

This Privacy Notice is version controlled. If I make a material change, I may issue the updated notice to current pupils through the Learn With Gary documentation process.
